

食品级透明波纹PTFE四氟软管

Food grade transparent corrugated PTFE Teflon hose

BW00

材质结构:

透明波纹状PTFE铁氟龙,
不含任何其它物品

Material structure:

Transparent corrugated PTFE Teflon,
It does not contain any other items

尺寸规格:

内径: Ø6mm---51mm (支持定制)

标准长度: 20M

温度范围: -60°C / +260°C

Dimensions:

Internal diameter: Ø6mm---51 mm(Support customization)

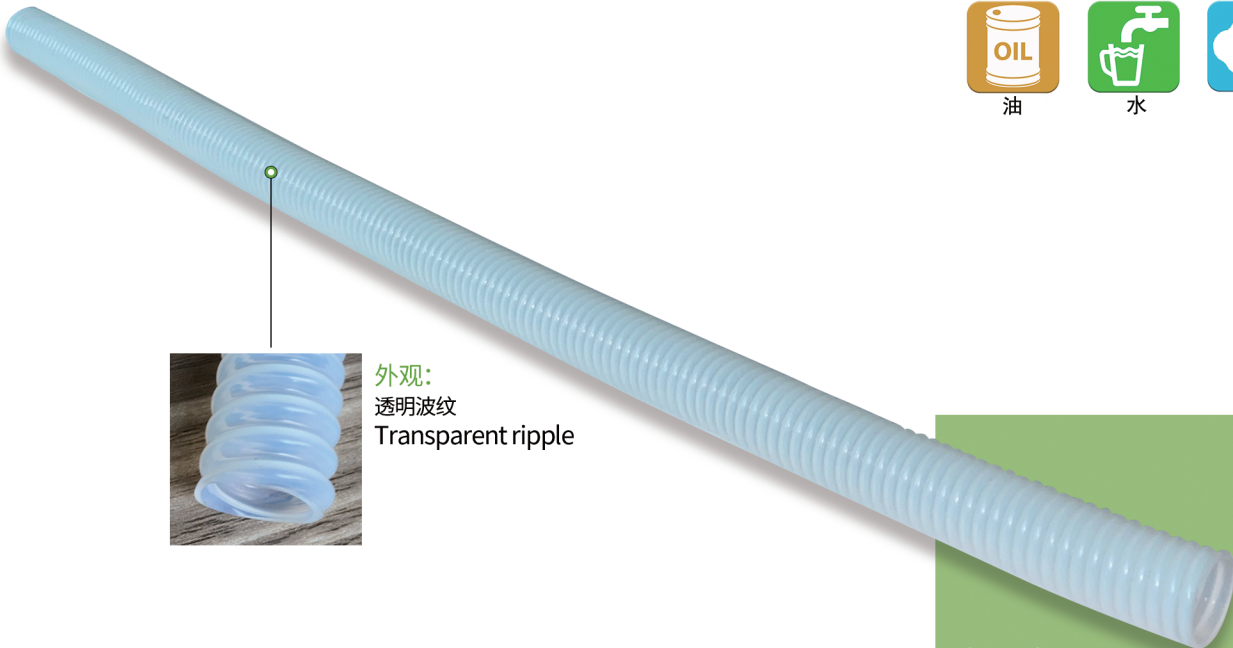

Standard length: 20M

Length operating temperature range: -60°C / +260°C

产品特点优势

适用流体类型

外观:
透明波纹
Transparent ripple

产品应用:

极强的耐高低温性和耐腐蚀性让其广泛应用于机械、电子电器、汽车、航天、化工化学、电热、军事、通讯等行业。也可以用于食品和制药行业。

Product application:

Its strong high and low temperature resistance and corrosion resistance make it widely used in machinery, electronic and electrical appliances, automobile, aerospace, chemical, electric heating, military, communication and other industries. It can also be used in the food and pharmaceutical industries.
